Some sage has observed that "it was better to have lived and been old when the world was young than to live now, though young when the world is old." Be that as it may, we would not care to live in either age without being insured from rheumatism, unless we had a supply of that never-failing remedy, St. Jacobs Oil. Mr. Joseph Fine, No. 230 Preston street, corner of Walnut, Louisville, Ky., says:—"I have used St. Jacobs Oil in my family for two years past, and have never found anything that it would not cure; there must, of course, be some limit to its powers, but I have not reached it yet, and I can say that I do not believe there are any muscular ailments, nervousness or inflammation that it will fail to cure. My boy Theodore fell down and sprained his foot; it swelled to two or three times its natural size. I applied St. Jacobs Oil, and in half a day he was as well as ever. It cured me of rheumatism and my wife of neuralgia.

He offered to help the unfortunate man out of the mud, and received the reply: "I ain't stuck in the mud; I'm sitting on the top of an omnibus down here."

AN OPPORTUNITY TO SHOW OURSELVES.

The National Mining and Industrial Exposition Association which has been organized under the laws of Colorado, with a capital of two hundred thousand dollars, is now erecting a building at Denver in which to hold an exposition during the months of September, October and November. This move will doubtless create a revival in mining interests, and is a venture in the right direction. In Colorado local meetings are being held to have that State fairly and intelligently represented.

The object is to place under the eyes of the world specimens of the mineral producing States and Territories. In an open letter the Secretary of the Association has said: "We do not wish to have the exposition appear as a Colorado institution, because it is not, except in location; we trust all our neighbors will be with us."

Nevada is almost purely a mineral State, and for many years stood first in rank in the production of silver. For the want of proper energy or discretion she has fallen from her former greatness—grown, to a certain extent, careless of her position, and has been suffering capital to seek other fields when it should be invested here. By proper management we can be most creditably represented at this exposition. We have within our borders nearly all of the known metals. Some organization should be effected by which these can be made to appear there and speak invitingly to capitalists, and to all who may attend. Nothing but our own lethargy will prevent our State from standing the peer in representations of Arizona, New Mexico, Montana, or any other State or Territory. The exposition will give us a golden opportunity to place our State in the front ranks, where her undeveloped wealth entitles her to stand.

Who will be the first to move—what locality first to organize and invite others to join in having Nevada mines and minerals largely represented at Denver during September, October and November?

EDITORIAL NOTES.

The San Francisco *Stock Report* says: "Shanghaiers are very active just at present and strangers are hardly safe in taking a stroll along the city front. Grangers should make a note of this and keep at a safe distance from the Produce Exchange, which is right in the midst of the shanghaiers' favorite hunting grounds. Gentlemen from the country who know the ropes, don't venture farther east than Sansome street unescorted, but transact most of their business on Pine street, between Montgomery and Sansome."

Certain business men of Stockton have been conducting what they call a private letter delivery. They provided boxes at their stores, which they rented to individuals in the vicinity, and would send an agent to the Postoffice, who would get all the mail for these different customers, and it would be distributed in the "private delivery" boxes. A recent order from the Department has forbidden this practice.

"Broom drills" are very fashionable now in the East as well as on this coast. A New York journalist suggests that shorter skirts and unexceptionable ankles greatly add to the effectiveness of the drill.

Governor Kinkead will join the Phil Kearney Post, Grand Army of the Republic, on Memorial Day, in Virginia, to properly observe the day.

Storms, tornadoes and polar waves are reported so frequently that it is not difficult to believe the comet is upsetting things.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

The Apaches Fleeing from Mexico—A Bounty for Scalps.

CHICAGO, May 24.

A letter to the *Times* from Corrizzi's Pass, Texas, about 600 miles west of Dallas and 113 miles east of El Paso, says much alarm is felt there on account of the close proximity of large parties of hostile Apaches going northeast at a distance of from three to fifteen miles from the camps of hunters, miners and prospectors near Corrizzi's Pass, and in full sight of them. Last night Indian signal fires were seen burning brightly in three different places close by. The hostiles are fleeing from Mexico to New Mexico, having been driven from south of the Rio Grande by Mexicans, who are making Indian-slaying one of the chief industries of the northern part of the Republic, to secure a bounty of three hundred dollars offered by the Mexican government for the scalp of every hostile Indian. Major Boyler and fifteen of his Texas Rangers have arrived at Corrizzi's Pass and were to depart this morning for a scout through the Guadaloupe mountains after hostiles. Corrizzi's Pass is the only place where hostiles retreating from Mexico to northwestern Texas or New Mexico can get through the Gaudaloupe mountains, and mining parties and prospectors generally fear an attack, but are keeping close together and are prepared for emergencies. As yet no murders have been reported, but news of some is feared. The presence of Major Boylor and his men may divert the hostiles from the old trail through the pass to some other direction.

The Government Bond Swindle.

WASHINGTON, May 24.

The Treasury authorities are very much interested in a statement submitted to them by Brockway, alias Spencer, but refuse to give out any details. It is understood that Brockway has made additional revelations, going to show where evidence can be found to convict the parties guilty of permitting the transfers which have been made from Government plates. The logical inference is that some startling results may be expected. If one of the plates can be duplicated, why not all of them? There is apparently no limit to the extraordinary developments threatened if Doyle is to be released. A Treasury official said to-day that the counterfeiting business appears at last to have been established upon a safe and permanent basis. All that is necessary to carry on that trade is to have some engraving and printing to furnish impressions of dies of the Government. Reserved plates concealed will furnish counterfeiters, wherever arrested, the means of escape, and their business can be resumed again with very great precision and without interruption.

A Pre-historic Skull.

ST. PAUL, May 24.

A skull of heroic size and singular formation has just been discovered among relics of the mound builders in the Red river valley. The mound was 60 feet in diameter and 12 feet high. Near the center were found the bones of something like probably a dozen males and females, mixed with bones of various animals. The skull in question was the only perfect one, and near it were found some abnormally large body-bones. The man who bore it was evidently a giant. Thorough investigation of the mound and its contents will be made by an historical party.

Another Arctic Proposition.

WASHINGTON, May 23.

The latest polar scheme is by J. Palmarts, of the Belgian Geographical Society, now visiting this country. He has devoted much time to arctic study, and proposes to explore the polar regions in a cigar-shaped steam vessel, running under water, and obtaining oxygen by decomposition. Palmarts says the experiments he has made develop the practicability of his scheme. He proposes a sixty days' voyage north from Spitzenbergen.

Memorial Day at Ball's Bluff.

WASHINGTON, May 23.

Representative George of Oregon has accepted an invitation to deliver the memorial address on Decoration Day at the National Cemetery at Ball's Bluff, Virginia, where Colonel Baker was killed. Ball's Bluff is also the birthplace and early home of the father of Mr. George.

Blaine's Excuse.

NEW YORK, May 24.

The *World's* Washington special says: Blaine, who was to have appeared before the Foreign Committee to-day, has sent word to Chairman Williams that urgent business would call him away to-morrow. He is going to Cincinnati to look after his new railway purchase.

The Pennsylvania Independents.

PHILADELPHIA, May 24.

George Lear, who presided at the regular Republican Convention, occupied a seat on the platform when the Independent Republican Convention was called to order. Prayer was offered by Rev. D. C. Babcock, a noted prohibitionist and Secretary of the Pennsylvania State Temperance Association. United States Senator Mitchell was chosen temporary chairman by acclamation, amidst cheers and applause. Mitchell returned thanks for the honor conferred, and said the work of the convention was not to nominate a ticket that would help the Democratic party or defeat the Republican party, but to nominate one that would receive the respect and support of the Republican party. This country has been founded upon principles which showed equal rights to all men, and on the spot where these principles were declared the Republican party was founded, and he trusted the atmosphere of this State would be found too free to be breathed by any Republican willing to be the slave, politically or otherwise, of any man. [Applause.] There must in the order of things be leaders, but not *bosses*. It would be well for the convention to declare against this system and against bossism and machinism. Not only to declare against them, but provide a remedy that would tear them up root and branch. [Applause] The only effective remedy will be found in a civil service system. The speaker would be glad to be able to stand before the convention and declare that it has a desire to support the administration if the President was disposed to enforce his system; but he was sorry to say there was yet no indication of such determination on the President's part, with the power to appoint to places of minor importance taken out of the hands of politicians, and made on a test of fitness alone.

A Railroad Proposition.

CHICAGO, May 24.

The officers of the Gulf, Colorado & Santa Fe Railway Company, operating 500 miles in Texas, are here, conferring with the Chicago & Alton R. R. officials, and have submitted a proposal that the latter extend lines from Kansas City to the northern boundary of Indian Territory; that the Gulf, Colorado & Santa Fe extend its lines from Fort Worth to the southern boundary of the Territory and the two interests unite in a third company and build a line across, 100 miles west of the Missouri, Kansas & Texas, each road to bear one-half of the expenses of the Gulf road to send 400,000 bales yearly over the Alton. The latter gave very little encouragement to the plan.

Texas Vigilantes.

CHICAGO, May 24.

A Galveston special says: At Belton, between 1 and 2 o'clock Sunday morning, an organized mob, 100 strong, took from jail Sam Holton (white), Sim Keyes (colored) and carried them three quarters of a mile from the public square and hanged them to an oak tree. The bodies were found yesterday. Holton was charged with several crimes, but had never been convicted. Keys was a low negro, and charged with an aggravated assault.

A Ruffian Wiped Out.

CHICAGO, May 24.

An Indian Territory special says: Moses Silk, a notorious ruffian and murderer, was riddled with bullets by Sheriff Taylor at Fort Sheenk. Silk was drunk and quarrelsome and resisted arrest, making a desperate fight. He is credited with killing five men and being accessory to many murders.

FOREIGN.

Regulating the Jews.

ST. PETERSBURG, May 14.

Regulations agreed upon by the Committee of Ministers and approved by the Emperor, provide that the Jews henceforth shall be prohibited from settling outside of towns and villages, except where Jewish settlements already exist. Jews are prohibited from trading on Sundays and Christian holidays. These regulations only apply to places where Jews are permanently settled. All contracts of purchase or tenantry with Jews are provisionally suspended.

Egyptian Darkness.

CAIRO, May 24.

The ministry continue hostile. Preparations are being made for a line of torpedoes to be laid along the coast. Native carpenters and smiths have been summoned to the citadel to-day. All officers were summoned to Abden barracks yesterday and required to swear to defend the Government against intervention. An attempt has been made to exact a similar understanding from the Bedouin Sheiks, but they refuse to pledge themselves to resist Turkish intervention. The united squadron contracts for three months' provisions.

The Derby.

LONDON, May 24.

Derby won by Shotover; Quick Time second, Lorillard's Sachem third. Brule, the favorite, came in fourth. Time of Shotover, 2:45 3-5. The betting against Sachem at the start was eight to one.

WESTERN.

The Grain Speculators.

SAN FRANCISCO, May 24.

The Produce Exchange held a very hot meeting this morning over the question of a number of prominent members seeking to join the Brokers' Grain Exchange, among whom are such well-known operators as Geo. W. McNear, Wm. T. Coleman, A. Banister of the Star Mills Company, R. Bruce of Bafour, Guthrie & Co., E. Meplet of Dresbach & Co., and others. It was decided to enforce the rule that any members of the Produce Exchange joining the Grain Exchange or any similar organization, in person or by proxy, shall be suspended on 10 days' notice. A lively rivalry has arisen between the two exchanges. The Grain Exchange shows greater dash and familiarity with the call business, but the Produce Exchange intends to make a vigorous fight for supremacy and will start an informal afternoon call on grain on June first, in addition to the regular morning call. A lively speculative business in grain is proposed in the near future.

Fatal Shooting by a Drunken Watchman.

TUCSON, A. T., May 23.

At 4 o'clock this morning J. H. Weber, night watchman for L. Zeckendorf & Co., while crazed by drink, fired promiscuously at people passing the store. One young man, C. M. Hinton, a peaceable spectator of the proceedings, was shot through the heart and instantly killed. Weber shot over a dozen times, under the impression that he was being robbed. He was finally arrested. The murderer has a wife and three children in Nevada. Hinton, who was greatly liked by his associates, has a wife in Oakland. He is a printer by trade, but was a sporting man here.

A Sheep-Herder Shot.

WINNEMUCCA, Nev., May 23.

A sheepherder, named Henry Schafer, was shot at Golconda last evening by Herman Eastman, an old settler, who claims that he fired in self-defense. Eastman says Schafer fired at him with a rifle, and a woman, named Slater attacked him with a poker at the same time. Eastman swore out a warrant against Schafer, who has just been brought here by an officer. He is wounded in the hip, having received a charge of shot in the side.

BELL TONGUE SYRUP,

AN ACCIDENTAL DISCOVERY OF great value.

An Inestimable Benefit to Mankind.

UNCLE BEN JO'S

GREAT SOUTH AMERICAN PANACEA.

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1844 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance off. This herb, Uncle J., as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part lops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by

J. D. McCurdy, now in the employ of the Bullion of Paradise Mining Company, came in last night on business.

Nathaniel Brown and wife, members of a Boston excursion party, are registered at the Lake House. They came by the way of the Southern road.

Miss Julia Bass of Janesville, California, who has been under medical treatment in San Francisco for some months, came up this morning and took the Honey Lake stage for home.

Mrs. F. W. Stevens, who has been visiting her daughter, Mrs. Weed of San Francisco, was a passenger on the Susanville stage this morning, hastening to the bedside of her husband, who was recently injured by a cave near Eagle Lake.

Miss Bacon, the young lady who arrived in Reno a few days ago direct from England, is lying dangerously ill at the house of Mrs. Drannon, with diphtheria and scarlet fever. Dr. Bergman is in attendance and has no hopes of her recovery.

A Case of Sheep-jiggles.

A man at the Palace this morning attracted considerable attention by his strange and incomprehensible gestures. His under jaw vibrated like a fiddle-string, and every now and then he dropped a small stone from one hand to the other. No one could imagine what was the matter with him until a well-known sheep-raiser entered and, in apparent surprise, accosted him: "Hello, Jake! When did you get here?" But there was no response. Then a light seemed to break in on the sheep man, and he exclaimed: "Good Lord! folks, this man's got the sheep-herder's jiggles. He went out here a week ago to count a band of sheep. There wasn't more than a thousand in the bunch, but he's been counting them ever since, till he's cross-eyed and dazed, and can see nothing but sheep. You know, when we count 'em we let 'em jump through an opening just big enough for one at a time, and as they come we count till we get up to a hundred, and then drop a stone from one hand to the other and commence afresh. He's been doing this for a week, and can't see anything but sheep now from here to Wadsworth.

A Horse Joke.

A certain farmer left his horse standing on the street yesterday while he "went in to get a drink." The horse walked off to Douglass avenue, and the man, thinking the animal had gone home, walked to his ranch, to find out the joke. Really, who was the joke on—the man or the horse?

Tourist Boom.

The Raymond excursion party from the East, consisting of five sleepers, one coach and a baggage car, will be in Reno to-morrow at 3 o'clock in the afternoon. Two other large excursion parties are following close in the wake of the Raymonds.

Tahoe Items.

TALLAC, May 23.

ED. GAZETTE: The first tourists of the season arrived here on the 21st. They went to Cascade to-day and returned with good strings of fish. The house is not open to the public yet, but Mrs. Clements, who has had charge of it all Winter, never turns anyone away. With plenty of chickens, eggs, milk and trout she can please the most fastidious.

The carpenters are turning the parlor and dining-room into one la[illegible] room. It will be a pleasant view from the front windows. This will be the finest place on the lake.

J. M. Benton, of Carson, sent two men here on the 21st to go to Gilmor's Soda Springs for mineral water. They walked up there (seven miles) and back the first day. The next morning they loaded up their wheelbarrow with flour, bacon, blankets and a gun and started, tandem, one man in front with a rope over his shoulders, the other pushing. They returned to-day with 12 dozen bottles, which will insure the lives of the Carsonites for a little while.

We had a jolly party of 12 here for dinner Sunday. It is said that we are to have several San Francisco school marms here soon. They are not dangerous, although some people think so.

The weather has been quite cold around the lake for the past two weeks, seriously retarding the operations of the logging men.

The ground tiers of logs are so imbedded in the ice as to be almost immovable, and the creeks are carrying so little water as to make the operation of running logs exceedingly laborious.

The burning of the bridge at Moore's station, on the Placerville line, cuts off travel on that road, but it will be in readiness for teams that cannot cross the west summit on their way to this valley before June 1st, on account of the snow.

John Smart at his logging camp a few days since, got his foot caught between two logs and badly jammed, and is now at Carson for medical treatment.

SUSAN JANE.

A Horned Toad Barometer.

A GAZETTE reporter was this morning shown by Louis Dean a candle-box containing about three inches of dry sand in the bottom, but saw nothing remarkable in it until Mr. Dean, in a delirium of enthusiasm, told of its wonderful accuracy in forecasting the weather. There was a horned toad in the sand, completely covered up. That action on the part of the reptile denotes bad weather. When a favorable change is about to occur, the animal emerges from the sand and lies on top, and so long as it remains there the weather is sure to be good—the sign never fails. When a whirlwind is at hand, the toad gets up on its hind legs and whizzes around like a boy's peg top, and if the day is going to be exceeding hot and calm, he sits up in a corner and fans himself with his flipper. This live barometer would be invaluable in the Western States, where tornadoes and cyclones are of frequent occurrence. Mr. Dean says he will furnish them for fifty cents each.

The Bostonians.

To-night the people of Sacramento will give 200 Boston excursionists a grand reception at the Capitol grounds. There will be music and moonli[illegible]t and the majestic dome of the State Capitol will be illuminated from top to bottom. This great crowd of sight-seers will arrive in Reno to-morrow evening, or on Friday morning, and, for the credit of the town they ought to be received in a manner commensurate with their lavish expenditure of money in pursuit of pleasure. The usual uproar of gongs and dinner bells along Commercial Row on the arrival of a train will not do. Get out a brass band and let the tourists know that there is music in Reno.

A Bodie Accident.

The *Free Press* says James Bruce, a teamster engaged in hauling wood to the Standard mill, met with a severe accident on Monday. His load slipped off somewhere near the mill, and he went off with it, and was badly bruised about the head by some of the pieces. He was taken in an unconscious condition to a drug store, where he remained unconscious for some time. He was cut about the head, but it is not thought his bruises are in any ways dangerous. He has been but a short time in Bodie. A man named Bruce left Reno a short time ago with a teaming outfit, for Bodie. Perhaps he is the injured man.

The Bon-Bon Party.

The bon-bon party to be given at Kimball Hall to-morrow evening by the young ladies, will be well attended. About eighty tickets have been sold. All the young folks, with a goodly sprinkling of old people, will be there. Those who attend are sure to pass a pleasant evening. One dollar pays the bill and ensures you lots of fun.

Beef Steers.

Louis Dean yesterday purchased 1,300 head of beef steers of Ward Bros. at $20 to $25 per head. The cattle are now ranging at Granite Point in Roop county, about 100 miles from Reno. The work of gathering them will be commenced in July, when they will be driven to Fish Springs and delivered.

The "Chosen Friends" in Truckee.

A Council of the Order of Chosen Friends was instituted in Truckee last evening by Mrs. A. E. Parker, D. G. C., with 48 charter members. It is to be called Meadow Lake Council. A. Graham was appointed Past Chief Councillor, Mrs. T. S. Hinds Vice Councillor, G. E. Marshal Secretary, C. C. Bayard Treasurer, Dr. Wm. Curless Medical Examiner. Great enthusiasm prevailed at the meeting, and the Council starts off in a prosperous condition.

Where is Taylor?

W. J. Taylor, of New Albany, Indiana, wrote to know the whereabouts of his brother, Samuel S. Taylor, who came from Indiana in 1854 and lived at Sacramento for several years, and was last heard from in 1867.

Tragic Death of Three Men.

A Salem (N. C.) dispatch of May 10th says: A remarkable and fatal termination of the burglarious exploits of three desperadoes took place last night in Wilkes county—John Boston, Will Wildfire and James Alstead losing their lives thereby. The three men had effected an entrance to the smoke-house of Mr. Albert Dyson by prying up the logs, and being discovered, one, Will Wildfire, was shot dead by Mr. Dyson, while the other two, in attempting to escape, knocked out the pry, which caused the opening they had made to close just as they were about half way out, crushing both to death in about half an hour. The report of the farmer's gun brought out a number of the plantation hands with pine-wood knots as torches, and they witnessed the terrible death of the two desperadoes, who wriggled like worms in agony between the logs, which held them like a vise. They begged the bystanders, who were powerless to relieve them, to knock them in the head and relieve them from their sufferings.

Fruit in Alameda, California.

The Haywards *Journal* says that the fruit being fairly set on the trees, there is no difficulty in determining the extent of the crop, and the results of observation are anything but flattering. There have not been such promises for years, but the appearances have proved delusive. Just at the time the flowers should assume fruit-shape the buds commenced falling, and only a small fraction of the blossoms have matured. The currants still promise an abundant yield, though a continuation of excessively hot weather may yet ruin the crop. The cherry yield will be lighter than it was last year. Peaches are almost a complete failure. Plums will hardly make an average crop. Apples will be very light. Apricots will be the best crop in this vicinity. Almonds are also light this season. Taken altogether the products in this township, in actual weight, will be less than it was last year, notwithstanding the increased acreage in orchards.

Copper in Demand.

The demand for copper is great at the present time, and those who can secure copper mines had better be on the alert. One of the most prominent dealers of New York estimates that the consumption of copper during the present year will reach 72,000,000 pounds.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

1882.
THE RENO GAZETTE

For 1882 will be a better paper than it has ever been before. It now gets all the latest press dispatches, and is thus placed many hours ahead of any other paper. It has always been the policy of the proprietor to make the GAZETTE a first-class local paper, with full accounts of everything that occurs in Reno, or Washoe county, or the State of Nevada. The resources of the country are carefully studied and written up by able correspondents, and the GAZETTE has done as much as all the other papers combined in this respect.

THE WEEKLY GAZETTE

contains all the reading matter of the Daily, without its advertisements. It is an eight-page paper, with good, plain letters and clean, white paper. It has increased in an extraordinary manner in the last six months, and is now growing rapidly. Its interesting matter, crisp editorials and late news make its popularity. By availing themselves of our club rates, the WEEKLY GAZETTE costs only half a dollar a year. It is given with the Bulletin, Chronicle, Examiner or Record-Union, which cost alone two dollars and fifty cents, for three dollars; with Harper's publications and the Argonaut for four dollars and fifty cents a year, and with other papers in proportion. Send for sample copies.
